

Just like the sun entices you under its warm cocoon, Aelia has been designed as a wellness haven in the outskirts of Nicosia, Cyprus, to transport your body, mind and spirit into pure bliss and serenity. With the sun as its primary energy source, Aelia's décor harmoniously combines elements of wood and stone to create a tranquil retreat, which promises to heal, de-stress and invigorate.

An eco-resort, which blends naturally within its pristine, natural surroundings, Aelia boasts a state-of-the-art spa for utter relaxation, eco-friendly accommodation, and a fine-dining restaurant. And, once you have explored what Aelia has to offer, you can take advantage of the full roster of activities from cycling to horse riding and cooking classes to wellness workshops.

Accommodation at Aelia promises guests a lovely stay, where they will feel right at home. Every little detail in each of the 14 suites has been carefully thought and brought together to create a peaceful aura; textures, aromas, fabrics, exclusive designs, style and relaxation in every feature. Every suite features a unique character, a completely different design with different handpicked extra touches. Suites with detailed woodwork, natural elegance and sumptuous style.
