

Located at an altitude of 1200m. on Mount Mainalos as a historic preserved building of unique architecture, which has been declared a protected monument known as the ‘Sanatorium of Mana’, MANNA is an iconic building of neoclassical influences, with cornices and gables.

Built by legendary local craftsmen from the nearby village of Lagadia which is known for their stone craftsmanship, and designed by the architect Xenophon Angelidis, the retreat features unique aesthetics and services, surrounded by forests, lakes and rivers with crystal waters that offer experiences of absolute well-being, all year round.

Nearby activities include mushroom hunting or horse riding in the nearby forest, canoe riding, mountain biking or even honey harvesting, were the opportunity to taste the unique and award-winning Fir Tree honey of the area.

The hotel includes 32 rooms and suites equipped with high ceilings, elegant decoration, large spaces, and sustainable materials which are literally inside the forest, instantly connecting you with nature.

Experience the beneficial properties of the sauna & hammam in the Manna wellness hub, relax in the ‘cave’ pool, meditate in nature or indoors, try out the especially equipped gym and many more!

Enjoy creative cuisine at the Manna restaurant, curated by the award-winning chef Athinagoras Kostakos, who uses pure local products of high nutritional value based on ethical nutrition and food that comforts the soul and nourishes the body and mind.
